

7th Grade and Transfers

Required Immunizations for Entering Our School

4 DPT – one shot must be after 4th birthday

3 Polio – one shot must be after 4th birthday

2 MMR – first shot must be on or after first birthday

3 HepB

Varicella (Chicken Pox) – note from parent or must receive vaccine

Tdap (7th grade)

Students will not be allowed to attend school unless they can document appropriate immunizations or are in the process of completing the minimum requirements. “In process” means they have received at least one dose of the required immunizations and are waiting the minimum time interval to receive the additional doses. When a student who is in the process of completing the required doses is admitted, the student will be given thirty (30) days to comply with these regulations. A written statement from a public health nurse (IMM-25) or private physician stating that the child is in process and containing a date when he/she must return for the next immunization should be in the student’s file. If a student does not produce documentation of additional immunizations per the schedule, they must be excluded from school until documentation is provided (Attorney general Opinion #76-47, April 3, 1978). When a student is in violation of the compulsory school attendance law, the local enforcing authority shall be notified. The immunization series does not need to be restarted as each dose of vaccine counts toward the minimum requirement.
