

How do I... Install FirstClass® at home (Windows)

Begin by opening your web browser and going to **www.ms3.org/clientdownloads**.

1. Click the appropriate link for your operating system. Most will probably be running some version of Microsoft Windows.

2. Click the indicated link to begin the download process.

3. When you receive a Security Warning similar to these, click **Run**.

4. **FC InstallShield Wizard** will open. This is a wizard so click **Next** near the bottom of each window to accept and move to the next step. Accept the License Agreement in step 2 and take the defaults (click Next) in the following windows. The Wizard will do the rest!
